<p>Uses a limited range of research methods to inform ideas and produces basic designs for a simple digital image solution which are based on the familiar or commonly used.</p> <p>Makes a basic list of components sourced for the digital image solution and gives basic reasons for selection in relation to the identified success criteria with limited explanation of what legislation constraints apply to their use.</p> <p>Specification has a basic structure. There may be errors in spelling, punctuation and grammar which are intrusive and likely to impact on the meaning. Makes limited use of technical terminology which demonstrates a basic understanding of the subject matter.</p> <p>Draws upon limited skills/knowledge/understanding from other units in the specification.</p> <p style="text-align: right;">[1 2 3]</p>	<p>Uses a range of research methods to inform ideas and produces clear designs for a digital image solution which show some originality and creativity.</p> <p>Makes a sound list of components sourced for the digital image solution and gives sound reasons for selection in relation to the identified success criteria and explains what legislation constraints apply to their use.</p> <p>Specification has a sound structure. Occasional errors in spelling, punctuation and grammar will not affect the overall meaning. Uses technical terminology with reasonable accuracy which demonstrates a clear understanding of the subject matter.</p> <p>Draws upon some relevant skills/knowledge/understanding from other units in the specification.</p> <p style="text-align: right;">[4 5 6]</p>	<p>Uses a wide range of relevant research methods effectively to inform ideas and produces clear and detailed designs for a digital image solution which show complexity, originality and creativity.</p> <p>Makes a comprehensive list of components sourced for the digital image solution, clearly explaining and justifying selection in relation to the identified success criteria. Explains legislation constraints that apply to their use, stating how they would comply with them.</p> <p>Specification has a logical and coherent structure. Contains few, if any, errors in spelling, punctuation and grammar. Uses technical terminology accurately and appropriately which demonstrates a thorough understanding of the subject matter.</p> <p>Clearly draws upon relevant skills/knowledge/understanding from other units in the specification.</p> <p style="text-align: right;">[7 8 9]</p>

Guidance on Completion of this Form

- 1 **One** sheet should be used for each candidate.
- 2 Please ensure that the appropriate boxes at the top of the form are completed.
- 3 Please enter *specific* page numbers where evidence can be found in the portfolio, and where possible, indicate to which part of the text in the mark band the evidence relates.
- 4 Circle the mark awarded for each strand of the marking criteria in the appropriate box and also enter the circled mark in the final column.
- 5 Add the marks for the strands together to give a total out of 60. Enter this total in the relevant box.
